PORTFOLIO

https://ihiggins.github.io/port/

EDUCATION

University of Massachusetts Boston | Bachelor of Science in Information Technology   Expected May. 2022
- GPA: 3.49/4.0

EXPERIENCE

Software Development Intern   May 2020 - August 2020
Voya Financial

- Developed and shipped a highly interactive project management web application to track progress, manage time, and manage budgets with Angular Js.
- Worked with designers to implement and execute A/B tests on VWO to create and test new designs for clients.
- Assisted with various features and bug fixes across a web application with Java spring boot and Drupal.

PROJECTS

Expt.
https://github.com/ihiggins/expt

>   Expt is a cross-platform app that makes answering online tests easier. It Scrapes data from Google and Quizlet documents to find answers. It's built with React and Electron.

Legislates.
https://github.com/ihiggins/legislates-web

>   Legislates is a government news Aggregator powered by AI Natural Language Processing with BERT text summarization. It scrapes government RSS feeds and summarises new bills and articles.

Hal Discord Bot.
https://ihiggins.github.io/Hal-Page/

>   Hal is a music bot for Discord. Hal can be used to create, manage, and play music playlists into Discord voice calls. It's built on top of the Discord JS module and uses a MongoDB database. It is deployed on Amazon EC2 and is used in around 100 different Discord servers.
